

ABOUT TEQ

Founded nearly thirty years ago as TekPackaging, TEQ is dedicated to being the leader of quality manufacturing in the thermoforming industry. TEQ's commitment to continuous improvement, design capability and process control gives the company the ability to serve customers better than anyone else.

From design and engineering, through to state of the art technology, and attentive and informed customer service, TEQ ensures that every aspect of every project is completed with the kind of precision that has made us the preferred choice of many clients.

ABOUT BELCO PACKAGING, INC.

Founded in 1959 as a precision machine shop, Belco Packaging Systems, Inc. has grown to become the largest manufacturer of shrink packaging and blister sealing systems on the West Coast of the U.S.A. Designed to the highest standards of machine performance, all Belco machines are backed by one of the most comprehensive warranties in the industry.

As part of the continuing commitment to customer service, Belco can design and install packaging systems that involve modified machinery and added options. Belco delivers, installs, services, and sells parts for all equipment it manufactures and has earned a reputation for consistent performance and engineering quality.
